

Moving your team from isolated services into the next generation of student well-being: Interconnected Systems Framework within MTSS

Part of the Spring 2023 Washington Association of School Psychologists Lecture Series.

2023 SESSIONS FRIDAYS | 9AM – 12PM PST

FEBRUARY 17
ISF IN WASHINGTON STATE:
Richland School District

MARCH 10
WHAT IS ISF/MTSS?

APRIL 21
HOW TO MOVE TOWARDS CHANGE:
Advocacy and Implementation
Science

MAY 12
DEVELOPING AN ACTION PLAN

Hear from experts in the field as well as professionals implementing [Interconnected Systems Framework \(ISF\)](#) in Washington today. Learn about ISF, the next generation of student wellness supports, a model for implementing effective tiered student wellness services from a variety of providers, school-based and community-based, within an existing MTSS structure.

It takes an active team to support the wellness of all students. Gather your school or district team together, including executive level leaders, to learn about ISF, to benefit from the experience of others, and to spend time creating a plan for change. Learn how existing ESA staff and other providers within your school community fit within the ISF team to support plan formation and implementation.

Student support frameworks in our schools may result in siloed systems which often do not feel productive or supportive for teams and students. Reimagine PBIS as a mental health initiative with ISF, to connect these systems to more effectively and efficiently serve the wellbeing of all students.
