COVID'S DISPROPORTIONATE IMPACT ON YOUTH NOW AND TOMORROW

COVID's Disproportionate Impact on Youth Now and Tomorrow

The **Northwest MHTTC School Mental Health team** is excited to co-sponsor **COVID's Disproportionate Impact on Youth Now and Tomorrow**. The **League of Education Voters** champions an education system that provides every student in the state an equal opportunity for success from cradle to career.

COVID-19 has illuminated many areas of inequity in our educational system. Not every student has had the same access online. Not every family has had the resources or time needed to support students in remote and hybrid learning. We are still learning how deep these impacts are

on students. And the mental health impacts of the pandemic are significant for students, caregivers, and educators.

Yet we also have an opportunity to have critical conversations and develop solutions together.

Join us on October 7, 2021 for a statewide virtual *FREE*
